

PERSONAL DATA

Today's Date: __/__/__

Name _____ Age ____ DOB ____/____/____
Address _____ City _____ PostCode _____ Mobile Phone _____
E-mail address _____ @ _____
Emergency Contact(Name/Number): _____
Parent or Guardian name(if you are under 18) _____
Whom may we thank for referring you to our office? _____

REASON FOR SEEKING CHIROPRACTIC CARE

What concerns do you feel TLC Birth & Beyond can address with your child? _____

Is this an Auto Accident Injury? Yes No

Has your child been treated elsewhere? Yes No

If **yes**, where? Emergency Room Primary Care Other _____

What services were provided? MRI X-Rays Medication Therapy Other (details) _____

HEALTH CARE PRACTITIONER HISTORY

Has your child ever received Chiropractic care? Y N Name of Chiro. _____

Who is your Child's GP ? Name of GP. _____

Has your child consulted any of the following providers? (check all that apply)

Naturopath Acupuncturist Homeopath Massage Therapist

Name of Health Practitioners & Reason: _____

The primary system in the body, which coordinates health, is the NERVE SYSTEM.
The vertebrae (bones of the spinal column) surround and protect the delicate NERVE SYSTEM.
Injury to the SPINE and NERVE SYSTEM is a condition called VERTEBRAL SUBLUXATION.
VERTEBRAL SUBLUXATION results in nerve malfunction due to vertebral/spinal misalignment.

Vertebral Subluxations can have Physical, Emotional and Chemical causes and effects.

PHYSICAL STRESS: BIRTH AND INFANCY

The birth process can traumatise a baby's spine and cause damage to the spine & nerve system. Please CHECK where and how you were birthed. (If you do not know, please skip to next question)

Informed Consent to Chiropractic Care

Changes to the law now require all chiropractors to warn people of material risks, associated with all health care procedures, including Chiropractic.

As in all health care procedures, there are some slight risks with chiropractic care. This includes, but is not limited to:

- Your condition becoming worse;
- Disc injuries, rib fracture, sprains/strains (1 in 139,000 in the neck and 1 in 62,000 in the low back) ⁽¹⁾;
- Stroke or stroke like symptoms (1 in 5.85 million neck adjustments) ⁽²⁾⁽³⁾.

Put in context, chiropractic has been shown to be 250 times safer than anti-inflammatory drugs ⁽⁴⁾ and safer than driving a car ⁽⁵⁾.

Some people may experience some mild soreness for 24 – 48 hours after their adjustments, especially when their body is unwinding. ⁽⁶⁾⁽⁷⁾ this is a normal sign of change, as may occur after exercise or stretching.

Clinical experience consistently demonstrates **unexpected improvement** in people's life. One study indicated that 23% of people experience improvement in some other aspect of their health. ⁽⁸⁾ Of individuals who experience such improvements:

- 26% experienced improvements in their respiratory system;
- 25% in their digestive system;
- 14% circulatory system/heart;
- 14% eyes/vision.

Broken down into subcategories the benefits were reported as follows:

- Easier to breathe: 21%
- Improved digestive function: 20%
- Clearer/better/sharper vision: 11%

(The references for the information quoted above are provided below.)

Agreement:

I have read and understand the information above. I understand that most care is given in an open setting. A private room is available upon request.

I consent to receive communication from TLC Birth and Beyond via email, postal mail, text and telephone messaging in connection with my care. If I should withdraw my consent, I will notify the office in writing.

I do not expect the chiropractor to be able to anticipate or explain all the risks and complications. I wish to rely on the chiropractor to exercise his/her judgment during the course of procedures which he/she feels, at the time, based upon the facts known, is in my best interests.

The information I have provided on this case history form is true and accurate to the best of my knowledge. I will have the opportunity to discuss with the chiropractor the nature and purpose of chiropractic adjustments and other procedures as well as other concerns. I understand that results are not guaranteed. I intend this consent form to cover the entire course of my chiropractic care for this and any future presentation. Should my current doctor cease care I give permission for him to pass on my file to the next Doctor.

I give the Chiropractors at TLC Birth and Beyond permission to render care to me today and at future visits. This initial visit includes a health history consultation, chiropractic exam and evaluation, and any initial care that is determined to be clinically necessary and mutually agreed upon.
